It is a curious but suggestive fact that Bergt. Mason, who attempted to shoot the assassin Guideau, has become a here in the eyes of his countrymen. The vecerable Thurlow Weed has published a letter servely commenting on the finding of the court-martial in Mason's case, and petitions asking the President to particular, signed by hundreds of thousands of people are being forwarded to Washington. Large subscriptions are also being must on behalf of Mrs. Mason and her children, and the soldier's wife is likely to become rich ere long. In Chiego alone, 122,000 signatures were affixed to the petition. The uniter contumpt for his and for justice which is thus shown to be artertained by a large number of the people of the United Guites, is simply actonishing.

The Oolborne Express says.—" The Cobourg World gives use sharp lecture on the Murray Canal question, denouncing the practice of terting in out on the eve of every election for some forty years—wanting to know why it inn't followed up immediately after an election—and—well, as we lately intumed, the World and other papers like it would stop everything in-model to promote the prosperity of the constry, if by such a course discredit could be brought upont the party in power. If the canal be a public necessity, and we believe its, if itseling Reformers in the district are to be believed, before, not after, an election is the proper time to urge its construction."
